NOTICE REGARDING WELLNESS PROGRAM

The wellness plan to which this portal relates is a voluntary wellness program available to certain employees and spouses of the sponsoring company. The program is administered according to federal rules permitting employer-sponsored wellness programs that seek to improve employee health or prevent disease, including the Americans with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act, as applicable, among others. If you choose to participate in the wellness program you will be asked to complete a voluntary health risk assessment or "HRA" that asks a series of questions about your health-related activities and behaviors and whether you have or had certain medical conditions (e.g., cancer, diabetes, or heart disease). You will also be asked to complete a biometric screening, which will include a blood test. **You are not required to complete the HRA or to participate in the blood test or other medical examinations.**

However, employees and/or spouses who choose to participate in the wellness program may receive an incentive for completing an HRA, participating in a blood test, or undergoing a medical examination. **Although you are not required to complete the HRA or participate in the biometric screening, only employees who do so will receive the incentive.**

Additional incentives may be available for employees who participate in certain health-related activities or achieve certain health outcomes. **If you are unable to participate in any of the health-related activities or achieve any of the health outcomes required to earn an incentive, you may be entitled to a reasonable accommodation or an alternative standard.** You may request a reasonable accommodation or an alternative standard by contacting the wellness plan’s administrator or by contacting Preventure, LLC at supportteam@preventure.com.

The information from your HRA and the results from your biometric screening will be used to provide you with information to help you understand your current health and potential risks, and may also be used to offer you services through the wellness program, such as health coaching, participation in informational seminars, or participation in disease management programs. You also are encouraged to share your results or concerns with your own doctor.

**Protections from Disclosure of Medical Information**

We are required by law to maintain the privacy and security of your personally identifiable health information. Although the wellness program and its sponsor may use aggregate information it collects to design a program based on identified health risks in the workplace, no party with access to your personal information will ever disclose any of your personal information either publicly or to the employer sponsor of the program, except as necessary to respond to a request from you for a reasonable accommodation needed to participate in the wellness program, or as expressly permitted by law.
